Table of Contents**TOTAL SYSTEM SERVICES, INC.****Notes to Unaudited Condensed Consolidated Financial Statements****Note 1 Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of Total System Services, Inc.® (TSYS® or the Company) include the accounts of TSYS and its wholly owned subsidiaries and TSYS' majority owned foreign subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

These financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. The preparation of the consolidated financial statements requires management of the Company to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. These estimates and assumptions are developed based upon all information available. Actual results could differ from estimated amounts. All adjustments, consisting of normal recurring accruals, which, in the opinion of management, are necessary for a fair presentation of financial position and results of operations for the periods covered by this report have been included.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the Company's summary of significant accounting policies, consolidated financial statements and related notes appearing in the Company's 2007 Annual Report previously filed on Form 10-K. Results of interim periods are not necessarily indicative of results to be expected for the year.

Certain reclassifications have been made to the 2007 financial statements to conform to the presentation adopted in 2008.

Note 2 Supplementary Balance Sheet Information*Cash and Cash Equivalents*

Cash and cash equivalent balances are summarized as follows:

<i>(in thousands)</i>	March 31, 2008	December 31, 2007
Cash and cash equivalents in domestic accounts	\$ 205,992	171,715
Cash and cash equivalents in foreign accounts	36,657	38,803
Total	\$ 242,649	210,518

The Company maintains accounts outside the United States denominated in currencies other than the U.S. dollar. All amounts in domestic accounts are denominated in U.S. dollars.

Prepaid Expenses and Other Current Assets

Significant components of prepaid expenses and other current assets are summarized as follows:

<i>(in thousands)</i>	March 31, 2008	December 31, 2007
Prepaid expenses	\$ 11,367	12,766
Income taxes receivable		10,838
Supplies inventory	8,326	8,725
Other	55,799	39,921
Total	\$ 75,492	72,250

Table of Contents*Contract Acquisition Costs, net*

Significant components of contract acquisition costs, net of accumulated amortization, are summarized as follows:

<i>(in thousands)</i>	March 31, 2008	December 31, 2007
Payments for processing rights, net	\$ 97,442	96,449
Conversion costs, net	62,336	55,150
Total	\$ 159,778	151,599

Amortization related to payments for processing rights, which is recorded as a reduction of revenues, was \$6.3 million and \$5.9 million for the three months ended March 31, 2008 and 2007, respectively.

Amortization expense related to conversion costs was \$3.5 million and \$3.9 million for the three months ended March 31, 2008 and 2007, respectively.

Other Current Liabilities

Significant components of other current liabilities are summarized as follows:

Table of Contents**Note 4 Segment Reporting and Major Customers**

The Company reports selected information about operating segments in accordance with Statement of Financial Accounting Standards No. 131 (SFAS No. 131), *Disclosures about Segments of an Enterprise and Related Information*. The Company's segment information reflects the information that the chief operating decision maker (CODM) uses to make resource allocations and strategic decisions. The CODM at TSYS consists of the chairman of the board and chief executive officer, the president and the three senior executive vice presidents.

Through online accounting and electronic payment processing systems, TSYS provides electronic payment processing and other services to card-issuing and merchant acquiring institutions in the United States and internationally. The Company has three reportable segments: domestic-based support services, international-based support services and merchant acquiring services.

Effective January 1, 2008, TSYS merged the operations of TSYS Prepaid, Inc. into TSYS. Effective February 1, 2008, TSYS merged the operations of Golden Retriever, L.L.C. (Golden Retriever) with TSYS Acquiring Solutions, L.L.C. (TSYS Acquiring). As a result, previous segment results were reclassified to move Golden Retriever from domestic-based support services to merchant acquiring services to reflect the change related to the merger.

In April 2007, TSYS wholly-owned subsidiary, Enhancement Services Corporation, changed its name to TSYS Loyalty, Inc. (TSYS Loyalty).

Domestic-based support services include electronic payment processing services and other services provided from within the United States. The domestic-based support services segment includes the financial results of TSYS, excluding its foreign branch offices and divisions, and including the following subsidiaries: Columbus Depot Equipment Company, Columbus Productions, Inc., TSYS Canada, Inc., TSYS Total Debt Management, Inc., ProCard, Inc., TSYS Technology Center, Inc., Merlin Solutions, L.L.C. and TSYS Loyalty.

International-based support services include electronic payment processing and other services provided from outside the United States. International-based support services include the financial results of GP Network Corporation, TSYS Japan Co., Ltd., TSYS Servicos de Transacoes Eletronicas Ltda., Total System Services Holding Europe LP and its subsidiaries and TSYS foreign branch offices and divisions. TSYS share of the equity earnings of its equity investments, Total System Services de México, S.A. de C.V. (TSYS de México) and China UnionPay Data Co., Ltd. (CUP Data), are included in international-based support services because TSYS de México's and CUP Data's operations and client bases are located outside the United States.

Merchant acquiring services include the financial results of TSYS Acquiring, and its wholly owned subsidiary TSYS POS Systems and Services, L.L.C.

Major Customers

For the three months ended March 31, 2008, the Company had three major customers which accounted for approximately 30.8%, or \$142.0 million, of total revenues. For the three months ended March 31, 2007, these three major customers accounted for approximately 33.7%, or \$144.6 million, of total revenues. Revenues from major customers for the periods reported are primarily attributable to the domestic-based support services and merchant acquiring services segments.

Revenue <i>(in millions)</i>	Three months ended March 31, 2008		2007	
	Dollars	% of Total Revenues	Dollars	% of Total Revenues

Note 5 Share-Based Compensation

The Company's Annual Report on Form 10-K for the year ended December 31, 2007, as filed with the SEC, contains a discussion of the Company's share-based compensation plans and policy.

Share-Based Compensation

TSYS's share-based compensation costs are included as expenses and classified as salaries and other personnel expenses and spin-related expenses. TSYS does not include amounts associated with share-based compensation as costs capitalized as software development and contract acquisition costs. For the three months ended March 31, 2008, share-based compensation was \$7.9 million, compared to \$3.0 million for the same period in 2007. Included in the \$7.9 million amount for 2008 and \$3.0 million amount for 2007 is approximately \$5.7 million and \$1.7 million, respectively, related to expensing the fair value of stock options.

Non-vested Share Awards

During the first three months of 2008, the Company issued 695,411 shares of TSYS common stock with a market value of \$15.2 million to certain key employees and non-management members of its board of directors under nonvested stock bonus awards for services to be provided by such officers, directors and employees in the future. The market value of the common stock at the date of issuance is amortized as compensation expense over the vesting period of the awards.

During the first three months of 2007, the Company issued 241,260 shares of TSYS common stock with a market value of \$7.6 million to certain key employees and non-management members of its board of directors under nonvested stock bonus awards for services to be provided by such officers, directors and employees in the future. The

market value of the common stock at the date of issuance is amortized as compensation expense over the vesting period of the awards.

As of March 31, 2008, there was approximately \$23.9 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements. That cost is expected to be recognized over a remaining weighted average period of 2.9 years.

During the first three months of 2008, TSYS authorized a total grant of 182,816 shares of nonvested stock to two key executives with a performance-vesting schedule (2008 performance-vesting shares). These 2008 performance-vesting shares have seven one-year

Table of Contents

performance periods (2008-2014) during which the Compensation Committee establishes an earnings per share goal. Each year's award is 20% of the total authorized shares. Compensation expense for each year's award is measured on the grant date based on the quoted market price of TSYS common stock and is expensed on a straight-line basis for the year.

During 2005, TSYS authorized a total grant of 126,087 shares of nonvested stock to two key executives with a performance-vesting schedule (2005 performance-vesting shares). These performance-vesting shares have seven one-year performance periods (2005-2011) during which the Compensation Committee establishes an earnings per share goal. Each year's award is 20% of the total authorized shares. Compensation expense for each year's award is measured on the grant date based on the quoted market price of TSYS common stock and is expensed on a straight-line basis for the year.

As of March 31, 2008, there was approximately \$1.3 million of total unrecognized compensation cost related to both the 2008 grant and 2005 grant of nonvested performance-vesting share-based compensation arrangements. That cost is expected to be recognized over the remainder of 2008.

On March 31, 2008, TSYS authorized performance based awards that have a market condition calculated on a combination of 2008 earnings per share growth and TSYS performance compared to the S&P 500 Technology Index during 2009 and 2010. Vesting of this award will occur on the last day of the three-year market condition valuation period if the participant is still employed on that date. Retirement for purposes of this award is defined as age 62 with 15 years of service, or age 65 regardless of service. The fair value of the award is based on a Monte Carlo simulation as prescribed by Statement of Financial Accounting Standards No. 123 (Revised) (SFAS No. 123R) *Share-Based Payment (Revised)*. The Company has engaged a third-party valuation specialist to ascertain the fair value of this award. The third-party specialist is expected to complete the evaluation during the second quarter of 2008.

Stock Option Awards

During the first three months of March 2008, the Company granted 768,855 stock options to key TSYS executive officers. The average fair value of the option grant was \$9.73 per option and was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted average assumptions: risk-free interest rate of 3.42%; expected volatility of 36.57%; expected term of 8.7 years; and dividend yield of 1.21%.

As of March 31, 2008, there was approximately \$10.0 million of total unrecognized compensation expense cost related to TSYS stock options that is expected to be recognized over a remaining weighted average period of 2.4 years.

Earnings Per Share

The diluted earnings per share calculation excludes stock options and nonvested awards that are convertible into 6.3 million common shares for the three months ended March 31, 2008, and excludes 11,000 common shares for the three months ended March 31, 2007 because their inclusion would have been anti-dilutive.

Note 6 Long-Term Debt

Refer to Note 11 of the Company's audited financial statements for the year ended December 31, 2007 which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2007, as filed with the SEC, for a discussion regarding long-term debt.

The Company did not enter into any new long-term borrowing arrangements during the first quarter of 2008.

Note 7 Supplementary Cash Flow Information**Contract Acquisition Costs**

Cash used for contract acquisition costs for the three months ended March 31, 2008 and 2007, respectively, are summarized as follows:

<i>(in thousands)</i>	March 31, 2008	March 31, 2007
Payments for processing rights	\$ 6,984	1,852
Conversion costs	10,184	5,293
Total	\$ 17,168	7,145

Table of Contents*Nonvested Awards*

During the first quarter of 2008 and 2007, the Company issued shares of common stock to certain key employees and non-management members of its board of directors under nonvested stock bonus awards for services to be provided by such key employees and directors in the future. Refer to Note 5 for more information.

Equipment and Software Acquired Under Capital Lease Obligations

The Company acquired equipment and software under capital lease obligations in the amount of \$5.4 million for the three months ended March 31, 2008 related to a software enterprise license agreement and storage and other peripheral hardware.

Note 8 Legal Proceedings

The Company is subject to various legal proceedings and claims and is also subject to information requests, inquiries and investigations arising out of the ordinary conduct of its business. In the opinion of management, based in part upon the advice of legal counsel, all matters are believed to be adequately covered by insurance, or if not covered, are believed to be without merit or are of such kind or involve such amounts that would not have a material adverse effect on the financial position, results of operations or cash flows of the Company if disposed of unfavorably. The Company establishes reserves for litigation and similar matters when those matters present loss contingencies that TSYS determines to be both probable and reasonably estimable in accordance with Statement of Financial Accounting Standards No. 5 (SFAS No. 5), *Accounting for Contingencies* .

Note 9 Guarantees and Indemnifications

The Company has entered into processing and licensing agreements with its clients that include intellectual property indemnification clauses. The Company generally agrees to indemnify its clients, subject to certain exceptions, against legal claims that TSYS services or systems infringe on certain third party patents, copyrights or other proprietary rights. In the event of such a claim, the Company is generally obligated to hold the client harmless and pay for related losses, liabilities, costs and expenses, including, without limitation, court costs and reasonable attorney's fees. The Company has not made any indemnification payments pursuant to these indemnification clauses.

The Company has not recorded a liability for guarantees or indemnities in the accompanying consolidated balance sheet since the maximum amount of potential future payments under such guarantees and indemnities is not determinable.

Note 10 Income Taxes

TSYS is a member of an affiliated group that files a consolidated U.S. Federal income tax return and most state and foreign income tax returns on a separate entity basis. In the normal course of business, the Company is subject to examinations by these taxing authorities unless statutory examination periods lapse. TSYS is no longer subject to U.S. Federal income tax examinations for years before 2004 and with a few exceptions, the Company is no longer subject to income tax examinations from state and local authorities for years before 2001 and from foreign authorities before 2003. There are currently no Federal or foreign tax examinations in progress. However, a number of tax examinations are in progress by the relevant state tax authorities. Although TSYS is unable to determine the ultimate outcome of these examinations, TSYS believes that its liability for uncertain tax positions relating to these jurisdictions for such years is adequate.

TSYS adopted the provisions of FASB Interpretation No. 48, *Accounting for Income Taxes an Interpretation of FASB Statement 109* (FIN 48) on January 1, 2007. This interpretation prescribed a recognition threshold and measurement attribute for the financial statement recognition, measurement and disclosure of a tax position taken or expected to be taken in a tax return.

TSYS recognizes potential interest and penalties related to the underpayment of income taxes as income tax expense in the consolidated statements of income. Gross accrued interest and penalties on unrecognized tax benefits totaled \$1.2 million and \$1.4 million as of December 31, 2007 and March 31, 2008, respectively. The total amounts of unrecognized income tax benefits as of December 31, 2007 and March 31, 2008 that, if recognized, would affect the effective tax rates are \$5.5 million and \$5.7 million (net of the Federal benefit on state tax issues), respectively, which include interest and penalties of \$0.9 million and \$1.0 million.

Table of Contents**TOTAL SYSTEM SERVICES, INC.****Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations****Financial Overview**

Total System Services, Inc.'s (TSYS or the Company's) revenues are derived from providing electronic payment processing and related services to financial and nonfinancial institutions, generally under long-term processing contracts.

For a detailed discussion regarding the Company's Operations, see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

A summary of the financial highlights for 2008, as compared to 2007, is provided below:

<i>(in millions, except per share data and employees)</i>	Three months ended March 31,		
	2008	2007	Percent Change
Revenues before reimbursables	\$360.0	343.6	4.8%
Total revenues	461.7	429.6	7.5
Operating income	86.8	85.7	1.3
Net income	56.6	57.3	(1.2)
Basic earnings per share (EPS)	0.29	0.29	(1.3)
Diluted EPS	0.29	0.29	(1.3)
Cash flows from operating activities	100.0	66.5	50.4
Other:			
Accounts on file (AOF)	364.9	422.7	(13.7)
Average full-time equivalent employees (FTE)	7,245	6,740	7.5

Significant highlights for 2008 include:

Corporate

Announced the launch of ingenuity in action: n>genSM, a new business paradigm that makes it easy for TSYS clients to efficiently and thoroughly manage all their complex payments-related business needs with point-and-click ease. n>gen is not a new platform and use of n>gen will not require conversion to a new platform – it adds a new level of business intelligence made available through analytical-based services, giving institutions a total view of their portfolios to make actionable, well-informed decisions on growth opportunities and overall risk.

Recently named Rod Boyer, a 21-year veteran of the payments and technology industries, president of TSYS Loyalty.

Domestic

Announced the renewal of a long-term agreement with Target Corporation, the operator of Target and SuperTarget stores, to service its REDcard portfolio. The multi-year agreement will include systems processing for Target[®] Visa[®] Credit Card, Target Credit CardSM, Target Check CardSM and the Target Business Card[®]. Target began working with TSYS in 2000 for the launch of its Visa product. TSYS began supporting the Target Credit CardSM portfolio in 2005. Target recently announced that it had entered into a \$3.6 billion credit facility with Chase Bank USA, N.A. secured by an undivided interest in approximately 47% of its credit card receivables. Based upon information currently available to it, TSYS believes that, even after the creation of this credit facility, Target retains control of its credit card portfolio and the creation of this credit facility does not impact its recently extended processing relationship with Target.

Announced the development by TSYS Loyalty of an innovative product that calculates points and rewards for customers who subscribe to multiple products with a single financial institution, including direct deposit,

credit, mortgage, insurance and Certificate of Deposit accounts. TSYS Enterprise RewardsSM (patent pending) also supports a Web interface, which allows the subscriber to manage their total relationship with a single access point.

Table of Contents

Announced the successful market launch of what we believe is the industry's most advanced benefits payments system. Fringe Benefits Management Company, the first third-party administrator to use this innovative solution, offers its subscribers the ability to pay from multiple healthcare tax-advantaged accounts, credit accounts and cash accounts through a single card.

International

Completed a contract to provide Standard Bank of South Africa card issuing, merchant acquiring and related payment services for the multiple countries across Africa in which Standard Bank operates. The South African-based financial services company has a global presence, operating in 18 countries in Africa and 20 on other continents, including the key financial centers of Europe, the Americas and Asia.

Financial Review

This Financial Review provides a discussion of critical accounting policies and estimates, related party transactions and off-balance sheet arrangements. This Financial Review also discusses the results of operations, financial position, liquidity and capital resources of TSYS and outlines the factors that have affected its recent earnings, as well as those factors that may affect its future earnings.

Critical Accounting Policies and Estimates

The Company's financial position, results of operations and cash flows are impacted by the accounting policies the Company has adopted. In order to gain a full understanding of the Company's financial statements, one must have a clear understanding of the accounting policies employed.

Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations are set forth in the Company's forward-looking statements. Negative developments in these or other risk factors could have a material adverse effect on the Company's financial position, results of operations and cash flows. For a detailed discussion regarding the Company's risk factors, see Item 1A: Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

For a detailed discussion regarding the Company's critical accounting policies and estimates, see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. There have been no material changes to the Company's critical accounting policies, estimates and assumptions or the judgments affecting the application of those estimates and assumptions in 2008.

Related Party Transactions

The Company believes the terms and conditions of transactions between the Company and its equity investments, Total System Services de México, S.A. de C.V. (TSYS de México) and China UnionPay Data Co., Ltd. (CUP Data), are comparable to those which could have been obtained in transactions with unaffiliated parties. The Company's margins with respect to related party transactions are comparable to margins recognized in transactions with unrelated third parties.

Off-Balance Sheet Arrangements

Operating Leases: As a method of funding its operations, TSYS employs noncancelable operating leases for computer equipment, software and facilities. These leases allow the Company to provide the latest technology while avoiding the risk of ownership. Neither the assets nor obligations related to these leases are included on the balance sheet.

Contractual Obligations: The total liability (with state amounts tax effected) for uncertain tax positions under FIN 48 at March 31, 2008 is \$5.7 million. Refer to Note 10 in the Notes to Unaudited Condensed Consolidated Financial Statements for more information regarding income taxes. The Company is not able to reasonably estimate the amount by which the liability will increase or decrease over time; however, at this time, the Company does not expect a significant payment related to these obligations within the next year.

As indicated in the Company's 2007 Annual Report on Form 10-K, total contractual cash obligations at December 31, 2007 were estimated at \$591.3 million. These contractual cash obligations include lease payments and software arrangements.

Table of Contents**Results of Operations**

The following table sets forth certain income statement captions as a percentage of total revenues and the percentage increases or decreases in those items for the three months ended March 31, 2008 and 2007, respectively:

	Percentage of		Percentage
	Total Revenues		Change
	2008	2007	in Dollar
			Amounts
			2008 vs. 2007
Revenues:

nm = not meaningful

Revenues

Total revenues increased \$32.1 million, or 7.5%, during the three months ended March 31, 2008, compared to the same period in 2007. The increase in revenues for the three months ended March 31, 2008 includes an increase of

\$1.6 million related to the effects of currency translation of its foreign-based subsidiaries and branches. Excluding reimbursable items, revenues increased \$16.4 million, or 4.8%, during the three months ended March 31, 2008, compared to the same period in 2007.

International Revenues

TSYS provides services to its clients worldwide and plans to continue to expand its service offerings internationally in the future.

Total revenues from clients domiciled outside the United States for the three months ended March 31, 2008 and 2007, respectively, are summarized below:

<i>(in millions)</i>	Three months ended March 31,		
	2008	2007	% Change
Europe	\$ 58.9	45.9	28.2
Canada	31.7	30.0	5.4
Japan	7.4	5.3	40.0
Mexico	3.7	3.3	14.4
Other	5.9	7.4	(19.6)
Totals	\$ 107.6	91.9	17.1

Table of Contents

Note: The Company has two equity investments located in Mexico and China that are accounted for under the equity method of accounting, and therefore, TSYS does not include the revenues of its equity investments in consolidated revenues.

The increase in revenues in 2008 from clients domiciled outside the United States was a result of acquisitions, internal growth of existing clients, the increased use of value added products and services, and the effects of currency translation.

TSYS expects to continue to grow its international revenues in the future through acquisitions, business expansion, new client signings and internal growth. TSYS may also grow as European financial institutions phase-in the Single Euro Payments Area (SEPA) requirements.

The purpose of SEPA is to treat all Euro payments in the Euro area as domestic payments and move the Euro area towards a more integrated payments market. The European Payments Council's plan for implementation of SEPA is structured in three phases: a design phase, an implementation phase and a migration phase. SEPA went live on January 28, 2008. The migration phase, which is scheduled to be complete by the end of 2010, is a period in which the European national payment schemes will coexist with the new SEPA schemes in order to allow a gradual market-driven migration to SEPA. As the deadline approaches, more European financial institutions may look to outsource their payment processing functions to third-party providers, such as TSYS.

The Company has also seen some growth in international revenues as a result of providing products and services to implement the EMV standard for secure payments. EMV is a standard for interoperation of IC cards (chip cards) and IC capable POS terminals, for authenticating credit and debit card payments. The name EMV is derived from the initial letters of Europay, MasterCard and VISA, the three companies which originally cooperated to develop the standard. JCB (formerly Japan Credit Bureau) joined the organization in December 2004. IC card systems based on EMV are being phased in across the world, under names such as IC Credit and Chip and PIN.

The purpose and goal of the EMV standard is to specify interoperation between EMV compliant IC cards and EMV compliant credit card payment terminals throughout the world. There are two major benefits to moving to smart card based credit card payment systems: improved security (with associated fraud reduction), and the possibility for finer control of offline credit card transaction approvals. EMV financial transactions are more secure against fraud than traditional credit card payments which use the data encoded in a magnetic stripe on the back of the card. Although not the only possible method, the majority of implementations of EMV cards and terminals confirm the identity of the cardholder by requiring the entry of a PIN (Personal Identification Number) rather than signing a paper receipt.

Value Added Products and Services

The Company's revenues are impacted by the use of optional value added products and services of TSYS processing systems. Value added products and services are optional features to which each client can choose to subscribe in order to potentially increase the financial performance of its portfolio. Value added products and services include: risk management tools and techniques, such as credit evaluation, fraud detection and prevention, and behavior analysis tools; and revenue enhancement tools and customer retention programs, such as loyalty programs and bonus rewards. These revenues can increase or decrease from period to period as clients subscribe to or cancel these services. Value added products and services are included primarily in electronic payment processing services revenue. For the three months ended March 31, 2008 and 2007, value added products and services represented 12.0% and 12.8%, respectively, of total revenues.

Major Customers

A significant amount of the Company's revenues is derived from long-term contracts with large clients, including its major customers. TSYS derives revenues from providing various processing, merchant acquiring and other services to these clients, including processing of consumer and commercial accounts, as well as revenues for reimbursable items. Refer to Note 4 in the Notes to Unaudited Condensed Consolidated Financial Statements for more information regarding major customers. The loss of these clients, or any significant client, could have a material adverse effect on the Company's financial position, results of operations and cash flows.

In August 2005, TSYS finalized a five year definitive agreement with Capital One Financial Corporation (Capital One) to provide processing services for its North American portfolio of consumer and small business credit card

accounts. TSYS completed the conversion of Capital One's portfolio from its in house processing system to TSYS processing system in March 2007. TSYS expects to maintain the card processing functions of Capital One for at least five years. After a minimum of three years of processing with TSYS, the agreement provides Capital One the opportunity to license TS2 under a long-term payment structure.

Table of Contents

In October 2006, TSYS deconverted the Bank of America consumer card portfolio. TSYS continues to provide commercial and small business card processing for Bank of America and MBNA, as well as merchant processing for Bank of America, according to the terms of the existing agreements for those services. In 2007, TSYS provided debit card embossing services to Bank of America.

In October 2004, TSYS finalized a definitive agreement with Chase to service the combined card portfolios of Chase Card Services and to upgrade its card-processing technology. Pursuant to the agreement, TSYS converted the consumer accounts of Chase to a modified version of TS2 in July 2005. In July 2007, Chase had the option to either extend the processing agreement for up to five additional two-year periods or migrate the portfolio in-house, under a perpetual license of a modified version of TSYS processing system with a six-year payment term. Chase discontinued its processing agreement at the end of July 2007 according to the original schedule and began processing in-house.

Although the revenues associated with the Chase licensing arrangement are expected to be much lower than the revenues associated with the Chase consumer processing arrangement, management believes the impact should not have a material adverse effect on TSYS financial position, results of operations or cash flows, as TSYS has planned and implemented a paring down of the resources dedicated to the consumer portfolio through employee attrition and/or redeployment, as well as through equipment lease expirations. TSYS expects to continue to support Chase in processing its commercial portfolio.

With the migration to a licensing arrangement and the resulting reduction in revenues, TSYS believes that the revenues from Chase for periods following the migration will represent less than 10% of TSYS total consolidated revenues.

Revenues from major customers for the periods reported are primarily attributable to the domestic-based support services segment and merchant acquiring services segment.

Electronic Payment Processing Services

Electronic payment processing services revenues are generated primarily from charges based on the number of accounts on file, transactions and authorizations processed, statements mailed, cards embossed and mailed, and other processing services for cardholder accounts on file. Cardholder accounts on file include active and inactive consumer credit, retail, debit, stored value, government services and commercial card accounts. Due to the strong organic growth of TSYS clients and the expanding use of cards, as well as increases in the scope of services offered to clients, revenues relating to electronic payment processing services have continued to grow. Revenues from electronic payment processing services increased \$11.2 million, or 4.9%, for the three months ended March 31, 2008 compared to the same period in 2007.

Merchant Acquiring Services

Merchant acquiring services revenues are derived from providing acquiring solutions, related systems and integrated support services to financial institutions and other merchant acquirers. Revenues from merchant acquiring services include processing all payment forms including credit, debit, prepaid, electronic benefit transfer and electronic check for merchants of all sizes across a wide array of retail market segments. Merchant acquiring services products and services include: authorization and capture of transactions; clearing and settlement of transactions; information reporting services related to transactions; merchant billing services; and point-of-sale equipment sales and service.

Revenues from merchant acquiring services are mainly generated by TSYS wholly owned subsidiary TSYS Acquiring Solutions, L.L.C. (TSYS Acquiring) and majority owned subsidiary GP Network Corporation. Merchant acquiring services revenues for the three months ended March 31, 2008 was \$61.7 million compared to \$60.7 million for the same period last year. The increase is attributable to internal growth of transactions of existing clients offset by client deconversions in the terminal distribution business and price compression.

TSYS Acquiring's results are driven by the authorization and capture transactions processed at the point-of-sale and clearing and settlement transactions. TSYS Acquiring's authorization and capture transactions are primarily through dial-up or Internet connectivity.

Other Services

Revenues from other services consist primarily of revenues generated by TSYS wholly owned subsidiaries not included in electronic payment processing services or merchant acquiring services, as well as TSYS business process management services. Revenues from other services increased \$4.2 million, or 8.0%, for the three months ended March 31, 2008, compared to the same period in 2007.

Reimbursable Items

As a result of the FASB's Emerging Issues Task Force No. 01-14 (EITF No. 01-14), *Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred*, the Company has included reimbursements received for out-of-pocket expenses as revenues and expenses. Reimbursable items increased \$15.7 million, or 18.2% for the three months ended March 31, 2008 as compared to the same period last year. TSYS recognized approximately \$34.8 million of attorney fees and court costs as additional reimbursable items for the three months ended March 31, 2008.

The majority of reimbursable items relates to the Company's domestic-based clients and is primarily costs associated with postage. The Company's reimbursable items are impacted with changes in postal rates and changes in

the volumes of all mailing activities by its clients. Effective May 14, 2007, the United States Postal Service increased the rate of first class mail. Effective May 12, 2008, the United States Postal Service is expected to increase the rate of first class mail by \$0.01.

Operating Expenses

Table of Contents

Total expenses increased 9.0% for the three months ended March 31, 2008, respectively, compared to the same period in 2007. The fluctuation in expense includes an increase of \$1.4 million for the three months ended March 31, 2008 related to the effects of currency translation of its foreign-based subsidiaries, branches and divisions. Excluding reimbursable items, total expenses increased 5.9% for the three months ended March 31, 2008 compared to the same period in 2007. The fluctuation in operating expenses is attributable to changes in each of the expense categories as described below.

Salaries and Other Personnel Expense

Summarized below are the major components of salaries and other personnel expense for the three months ended March 31:

<i>(in thousands)</i>	Three months ended March 31,		
	2008	2007	% Change
Salaries	\$ 106,606	101,491	5.0%
Employee benefits	29,518	26,835	10.0
Nonemployee wages	13,810	9,917	39.3
Share-based compensation	3,745	3,048	22.9
Other	3,586	2,801	28.0
Less capitalized expenses	(8,948)	(3,647)	145.3
Total	\$ 148,317	140,445	5.6%

Salaries and other personnel expense increased \$7.9 million, or 5.6%, for the three months ended March 31, 2008 compared to the same period in 2007. The change in salaries and other personnel expense is associated with the normal salary increases and related benefits, offset by the higher level of employment costs capitalized as software development and contract acquisition costs. Salaries and other personnel expense include the accrual for performance-based incentive benefits, which includes bonuses, profit sharing and employer 401(k) expenses. For the three months ended March 31, 2008 and 2007, the Company accrued \$4.4 million and \$7.5 million, respectively, for performance-based incentives.

Prior to the spin-off by Synovus Financial Corp. (Synovus) to its shareholders of all the shares of TSYS held by Synovus, Synovus provided certain administrative services, such as human resources, legal, security and tax preparation and compliance, to TSYS in exchange for a management fee, which is included in other operating expenses, to cover TSYS pro rata share of services. With the spin-off, TSYS will begin recruiting employees and assuming these functions during 2008. During this transition period, TSYS will continue to utilize Synovus administrative services until these functions are operational within TSYS in exchange for an adjusted management fee based on utilization. As it assumes these functions, the Company expects salaries and other personnel expenses to increase, while other operating expenses decrease. TSYS headcount will also increase by approximately 60 people as these administrative services transition.

Capitalized salaries and personnel expenses increased \$5.3 million for the three months ended March 31, 2008 as compared to the same period in 2007, as a result of increased client conversion and implementation activity in the international segment.

The Company's salaries and other personnel expense is greatly influenced by the number of employees. Below is a summary of the Company's employee data:

Employee Data:

	2008	2007	% Change
(FTE)			
At March 31,	7,548	6,804	10.9
YTD Average	7,245	6,740	7.5

The majority of the increase in the number of employees in 2008 as compared to 2007 is a result of the expansion of TSYS international business.

Share-based compensation expenses include the impact of expensing the fair value of stock options in 2008, as well as expenses associated with nonvested shares. For the three months ended March 31, 2008, share-based compensation was \$3.7 million, compared to \$3.0 million for the same period in 2007.

Net Occupancy and Equipment Expense

Table of Contents

Summarized below are the major components of net occupancy and equipment expense for the three months ended March 31, 2008 and 2007:

<i>(in thousands)</i>	Three months ended March 31,		
	2008	2007	% Change
Depreciation and amortization	\$ 28,683	28,003	2.4%
Equipment and software rentals	20,511	20,836	(1.6)
Repairs and maintenance	12,948	10,274	26.0
Other	10,744	8,235	30.5
Totals	\$ 72,886	67,348	8.2%

Net occupancy and equipment expense increased \$5.5 million, or 8.2%, for the three months ended March 31, 2008 over the same period in 2007.

Repairs and maintenance increased for the three months ended March 31, 2008, as compared to the same period in 2007, as a result of support for additional software licenses and equipment.

Spin Related Expenses

In July 2007, Synovus Board of Directors appointed a special committee of independent directors to make a recommendation with respect to whether to distribute Synovus ownership interest in TSYS to Synovus shareholders. As a result, the TSYS Board of Directors formed a special committee of independent TSYS directors to consider the terms of any proposed spin-off by Synovus of its ownership interest in TSYS, including the size of the pre-spin cash dividend. TSYS incurred expenses associated with advisory and legal services in connection with the spin assessment. As the spin-off was finalized and completed, TSYS also incurred expenses for the incremental fair value associated with converting Synovus stock options held by TSYS employees to TSYS options. During the three months ended March 31, 2008, the Company incurred approximately \$6.9 million of spin related expenses. TSYS expects to incur additional spin related costs in 2008 associated with legal and advisory services, incremental fair value associated with the Synovus stock option conversion and other costs associated with unwinding the different commingled processes that Synovus and TSYS previously shared. TSYS estimates that it will incur approximately \$16.0 million of spin related costs in operating expenses in 2008.

Other Operating Expenses

Summarized below are the major components of other operating expenses for the three months ended March 31, 2008 and 2007:

<i>(in thousands)</i>	Three months ended March 31,		
	2008	2007	% Change
Third-party data processing services	\$ 9,934	9,364	6.1
Travel and business development	6,985	6,349	10.0
Supplies and stationery	5,368	4,700	14.2
Professional advisory services	3,628	5,563	(34.8)
Amortization of conversion costs	3,458	3,855	(10.3)
Court costs associated with debt collection services	2,080	4,270	(51.3)
Amortization of acquisition intangibles	659	834	(21.0)
Transaction processing provisions	265	(792)	(133.4)
Terminal deployment costs	227		nm
Management fees	36	2,272	(98.4)
Bad debt (recoveries) expense	(1,562)	67	nm
Other	14,090	13,657	3.2

Totals	\$ 45,168	50,139	(9.9)
--------	------------------	--------	-------

nm = not meaningful

Other operating expenses include, among other things, amortization of conversion costs, costs associated with delivering merchant services, professional advisory fees and court costs associated with the Company's debt collection business. Other operating expenses also include charges for processing errors, contractual commitments and bad debt expense. As described in the Critical Accounting Policies section set forth in Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's 2007 Form 10-K, management's evaluation of the adequacy of its transaction processing reserves and allowance for

Table of Contents

doubtful accounts is based on a formal analysis which assesses the probability of losses related to contractual contingencies, processing errors and uncollectible accounts. Increases and decreases in transaction processing provisions and charges for bad debt expense are reflected in other operating expenses.

Other operating expenses for the three months ended March 31, 2008 decreased \$5.0 million, or 9.9%, as compared to the same period in 2007. The decrease in operating expenses is primarily the result of the recognition of attorney fees and court costs associated with debt collection services as reimbursable items and the decrease in management fees due to the transitioning away from administrative services previously supplied by Synovus.

Operating Income

Operating income increased 1.3% for the three months ended March 31, 2008 over the same period in 2007. The Company's operating profit margin for the three months ended March 31, 2008 was 18.8% compared to 19.9% for the same period last year. TSYS' operating margin decreased for the three months ended March 31, 2008, as compared to the same period in 2007, as the result of spin related costs.

Nonoperating Income (Expense)

Interest income for the three months ended March 31, 2008 was \$2.6 million, a decrease of \$2.9 million, compared to \$5.5 million for the same period in 2007. The decrease in interest income is primarily attributable to less cash available to invest primarily due to the payment of the one-time special dividend of \$600 million paid in December 2007 associated with the spin-off.

Interest expense for the three months ended March 31, 2008 was \$3.3 million, an increase of \$3.1 million compared to \$210,000 for the same period in 2007. The increase in interest expense in 2008 compared to 2007 relates to the increased borrowings undertaken by the Company in 2007, primarily associated with paying the one-time special dividend.

On October 25, 2007, TSYS announced that it had entered into an agreement and plan of distribution with Synovus under which Synovus planned to distribute all of its shares of TSYS stock to Synovus' shareholders in a spin-off transaction, which spin-off took place on December 31, 2007. Prior to the spin-off transaction and in accordance with the agreement and plan of distribution, TSYS agreed to pay a one-time aggregate cash dividend of \$600 million to all TSYS shareholders, including Synovus. TSYS funded the dividend with a combination of cash on hand and the use of a revolving credit facility.

For the three months ended March 31, 2008 and 2007, the Company recorded a translation gain of approximately \$1.9 million and \$683,000, respectively, related to intercompany loans and foreign denominated balance sheet accounts.

Occasionally, the Company will provide financing to its subsidiaries in the form of an intercompany loan, which is required to be repaid in U.S. dollars. For its subsidiaries whose functional currency is something other than the U.S. dollar, the translated balance of the financing (liability) is adjusted upward or downward to match the U.S.-dollar obligation (receivable) on the Company's financial statements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation. As a result of these financing arrangements, the Company recorded a foreign currency translation gain on the Company's financing for the three months ended March 31, 2008 of \$941,000. The balance of these financing arrangements at March 31, 2008 was approximately \$8.6 million.

The Company records foreign currency translation adjustments on foreign-denominated balance sheet accounts. The Company maintains several cash accounts denominated in foreign currencies, primarily in Euros and British Pounds Sterling (BPS). As the Company translates the foreign-denominated cash balances into U.S. dollars, the translated cash balance is adjusted upward or downward depending upon the foreign currency exchange movements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation in the Company's statements of income. As those cash accounts have increased, the upward or downward adjustments have increased. The Company recorded a net translation gain of approximately \$1.0 million for the three months ended March 31, 2008 related to the translation of foreign denominated balance sheet accounts, most of which were cash. The balance of the Company's foreign-denominated cash accounts subject to risk of translation gains or losses at March 31, 2008 was approximately \$16.3 million, the majority of which is denominated in Euros.

Income Taxes

TSYS effective income tax rate for the three months ended March 31, 2008 was 36.9%, compared to 37.9% for the same period in 2007. The calculation of the effective tax rate is income taxes plus income taxes associated with equity income divided by TSYS pretax income adjusted for minority interests in consolidated subsidiaries net income and equity pre-tax earnings of its equity

Table of Contents

investments. Refer to Note 10 in the Notes to Unaudited Condensed Consolidated Financial Statements for more information regarding income taxes.

In the normal course of business, TSYS is subject to examinations from various tax authorities. These examinations may alter the timing or amount of taxable income or deductions or the allocation of income among tax jurisdictions.

TSYS continually monitors and evaluates the potential impact of current events and circumstances on the estimates and assumptions used in the analysis of its income tax positions, and, accordingly, TSYS' effective tax rate may fluctuate in the future.

Equity in Income of Equity Investments

The Company has three equity investments located in the United States, Mexico and China that are accounted for under the equity method of accounting. TSYS' share of income from its equity in equity investments was \$1.8 million and \$860,000 for the three months ended March 31, 2008 and 2007, respectively.

Net Income

Net income for the three months ended March 31, 2008 decreased 1.2%, or \$0.7 million, to \$56.6 million, or basic and diluted earnings per share of \$0.29, compared to \$57.3 million, or basic and diluted earnings per share of \$0.29, for the same period in 2007.

Net Profit Margin

The Company's net profit margin for the three months ended March 31, 2008 was 12.3%, compared to 13.3% for the same period last year. TSYS' profit margin is impacted by the consolidation of majority-owned subsidiaries. The Company recognizes only its share of net profits from these entities, while consolidating all their revenues, which has the impact of lowering overall net profit margins. TSYS' net profit margin decreased for the quarter as the result of spin related costs.

Profit Margins and Reimbursable Items

Management believes that reimbursable items distort operating and net profit margins as defined by generally accepted accounting principles. Management evaluates the Company's operating performance based upon operating and net profit margins excluding reimbursable items. Management believes that operating and net profit margins excluding reimbursable items are more useful because reimbursable items do not impact profitability as the Company receives reimbursement for expenses incurred on behalf of its clients.

Below is the reconciliation between reported margins and adjusted margins excluding reimbursable items for the three months ended March 31, 2008 and 2007, respectively:

<i>(in thousands)</i>	Three months ended March	
	2008	2007
Operating income	\$ 86,775	85,679
Net income	\$ 56,614	57,273
Total revenues	\$ 461,723	429,603
Operating margin (as reported)	18.8%	19.9%
Net profit margin (as reported)	12.3%	13.3%
Revenue before reimbursable items	\$ 360,041	343,611
Adjusted operating margin	24.1%	24.9%
Adjusted net profit margin	15.7%	16.7%

Projected Outlook for 2008

TSYS expects its 2008 net income to increase between 7-9% as compared to 2007, based on the following assumptions: (1) expenses associated with the spin-off net of tax will be \$10 million; (2) there will be no significant movements in LIBOR and TSYS will not make any significant draws on its \$252 million revolving credit facility; (3) estimated total revenues will increase 7% to 9% in 2008; (4) anticipated growth levels in employment, equipment and other expenses, which are included in 2008 estimates, will be accomplished; (5) there will be no significant movement in foreign currency exchange rates related to TSYS business; and (6) TSYS

Table of Contents

will not incur significant expenses associated with the conversion of new large clients or acquisitions, or any significant impairment of goodwill or other intangibles, and there will be no significant portfolio deconversions.

Financial Position, Liquidity and Capital Resources

The Condensed Consolidated Statements of Cash Flows detail the Company's cash flows from operating, investing and financing activities. TSYS' primary method of funding its operations and growth has been cash generated from current operations and the use of leases. TSYS has occasionally used borrowed funds to supplement financing of capital expenditures, acquisitions and most recently the spin-off.

Cash Flows From Operating Activities

<i>(in thousands)</i>	Three months ended March 31,	
	2008	2007
Net income	\$ 56,614	57,273
Depreciation and amortization	39,229	38,597
Other noncash items and charges, net	(37)	(3,057)
Net change in current and long-term assets and current and long-term liabilities	4,193	(26,363)
Net cash provided by operating activities	\$ 99,999	66,450

TSYS' main source of funds is derived from operating activities, specifically net income. During the three months ended March 31, 2008, the Company generated \$100.0 million in cash from operating activities compared with \$66.5 million for the same period last year. The increase in 2008 in net cash provided by operating activities was primarily the result of increased current and long-term liabilities.

Net change in current and long-term assets and current and long-term liabilities include accounts receivable, prepaid expenses, other current assets and other assets, accounts payable, accrued salaries and employee benefits, other current liabilities and other liabilities. The change in accounts receivable at March 31, 2008, as compared to December 31, 2007, is the result of timing of collections compared to billings. The change in accounts payable and other liabilities for the same period is the result of the timing of payments, funding of performance-based incentives and payments of vendor invoices.

Cash Flows From Investing Activities

<i>(in thousands)</i>	Three months ended March 31,	
	2008	2007
Purchases of property and equipment, net	\$ (14,350)	(17,232)
Additions to licensed computer software from vendors	(2,351)	(3,884)
Additions to internally developed computer software	(2,413)	(3,039)
Cash used in acquisitions, net of cash acquired	(17,168)	(472)
Additions to contract acquisition costs	(17,168)	(7,145)
Net cash used in investing activities	\$ (36,282)	(31,772)

The major uses of cash for investing activities have been the addition of property and equipment, primarily computer equipment, the purchase of licensed computer software and internal development of computer software, investments in contract acquisition costs associated with obtaining and servicing new or existing clients, and business acquisitions. The Company used \$36.3 million in cash for investing activities for the three months ended March 31, 2008, compared to \$31.8 million for the same period in 2007. The major use of cash for investing activities in 2008 was for the addition to contract acquisition costs. The major use of cash for investing activities in 2007 was for the addition of equipment.

Contract Acquisition Costs

TSYS makes cash payments for processing rights, third-party development costs and other direct salary-related costs in connection with converting new customers to the Company's processing systems. The Company's investments in contract acquisition costs were \$17.2 million for the three months ended March 31, 2008, compared to \$7.1 million for the three months ended March 31, 2007. The Company had cash payments for processing rights of approximately \$7.0 million during the three months ended March 31, 2008, compared to \$5.3 million for the same period last year.

Table of Contents

Conversion cost additions were \$10.2 million and \$1.9 million for the three months ended March 31, 2008 and 2007, respectively. The increase in the amount of conversion cost additions for 2008, as compared to 2007, is the result of increased activity related to more conversions occurring in 2008 versus 2007.

Cash Flows From Financing Activities

<i>(in thousands)</i>	Three months ended March	
	2008	2007
Dividends paid on common stock	\$ (13,858)	(13,783)
Proceeds from borrowings of long-term debt		6,805
Repurchase of common stock	(11,369)	
Principal payments on long-term debt borrowings and capital lease obligations	(4,976)	(562)
Other	126	6,021
Net cash used in financing activities	\$ (30,077)	(1,519)

The major use of cash for financing activities has been the payment of dividends and repurchase of common stock. The main source of cash from financing activities has been the occasional use of borrowed funds and the exercise of stock options. Net cash used in financing activities for the three months ended March 31, 2008 was \$30.1 million mainly as a result of the payment of dividends and repurchase of common stock. Net cash used in financing activities for the three months ended March 31, 2007 was \$1.5 million mainly as a result of the payment of dividends.

Stock Repurchase Plan

On April 20, 2006, TSYS announced that its board had approved a stock repurchase plan to purchase up to 2 million shares, which at the time represented slightly more than five percent of the shares of TSYS stock held by shareholders other than Synovus. The shares were to be purchased from time to time over a two year period and would depend on various factors including price, market conditions, acquisitions and the general financial position of TSYS. Repurchased shares are to be used for general corporate purposes.

With the completion of the spin-off, the TSYS Board of Directors extended to April 2010 TSYS current share repurchase program that was set to expire in April 2008 and increased the number of shares that may be repurchased under the plan from 2 million to 10 million.

During the three months ended March 31, 2008, TSYS purchased 500,000 shares of TSYS common stock. The Company has approximately 8,398,000 shares remaining that could be repurchased under the stock repurchase plan.

Dividends

Dividends on common stock of \$13.9 million were paid during the three months ended March 31, 2008 compared to \$13.8 million paid during the three months ended March 31, 2007.

Significant Noncash Transactions

Refer to Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information about supplementary cash flow information.

Foreign Exchange

TSYS operates internationally and is subject to potentially adverse movements in foreign currency exchange rates. Since December 2000, TSYS has not entered into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes. TSYS continues to analyze potential hedging instruments to safeguard it from significant foreign currency translation risks.

Impact of Inflation

Although the impact of inflation on its operations cannot be precisely determined, the Company believes that by controlling its operating expenses, and by taking advantage of more efficient computer hardware and software, it can minimize the impact of inflation.

Table of Contents**Working Capital**

TSYS may seek additional external sources of capital in the future. The form of any such financing will vary depending upon prevailing market and other conditions and may include short-term or long-term borrowings from financial institutions or the issuance of additional equity and/or debt securities such as industrial revenue bonds. However, there can be no assurance that funds will be available on terms acceptable to TSYS. Management expects that TSYS will continue to be able to fund a significant portion of its capital expenditure needs through internally generated cash in the future, as evidenced by TSYS' current ratio of 1.9:1. At March 31, 2008, TSYS had working capital of \$291.9 million compared to \$312.8 million at December 31, 2007.

Legal Proceedings

The Company is subject to various legal proceedings and claims and is also subject to information requests, inquiries and investigations arising out of the ordinary conduct of its business. In the opinion of management, based in part upon the advice of legal counsel, all matters are believed to be adequately covered by insurance, or if not covered, are believed to be without merit or are of such kind or involve such amounts that would not have a material adverse effect on the financial position, results of operations or cash flows of the Company if disposed of unfavorably. The Company establishes reserves for litigation and similar matters when those matters present loss contingencies that TSYS determines to be both probable and reasonably estimable in accordance with Statement of Financial Accounting Standards No. 5 (SFAS No. 5), *Accounting for Contingencies*.

Recent Accounting Pronouncements

The Company's Annual Report on Form 10-K for the year ended December 31, 2007, as filed with the SEC, contains a discussion of recent accounting pronouncements and the expected impact on the Company's financial statements.

Forward-Looking Statements

Certain statements contained in this filing which are not statements of historical fact constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act (the Act). These forward-looking statements include, among others: (i) TSYS' plans to continue to expand its service offerings internationally and expectation that international revenues will continue to grow; (ii) TSYS' expectation that it will maintain the card processing functions of Capital One for at least five years; (iii) management's belief that Chase's discontinuation of its processing agreement will not have a material adverse affect on TSYS and that TSYS will continue to support Chase in processing its commercial portfolio; (iv) TSYS' belief that Target's credit facility with Chase will not impact TSYS processing relationship with Target; (v) TSYS' expectation with respect to spin-related costs; (vi) TSYS' expectation that it will be able to fund a significant portion of its capital expenditure needs through internally generated cash in the future; (vii) TSYS' expected net income growth for 2008; (viii) TSYS' belief with respect to lawsuits, claims and other complaints; (ix) the expected financial impact of recent accounting pronouncements; (x) TSYS' expectation with respect to certain tax matters; and the assumptions underlying such statements, including, with respect to TSYS' expected increase in net income for 2008: (a) expenses associated with the spin-off will be approximately \$10 million net of tax; (b) there will be no significant movements in LIBOR and TSYS will not make any significant draws on its revolving credit facility; (c) estimated total revenues will increase 7% to 9% in 2008; (d) there will be no significant movement in foreign currency exchange rates related to TSYS' business; (e) anticipated growth levels in employment, equipment and other expenses, which are included in 2008 estimates, will be accomplished; and (f) TSYS will not incur significant expenses associated with the conversion of new large clients and/or acquisitions, or any significant impairment of goodwill or other intangibles, and there will be no significant portfolio deconversions. In addition, certain statements in future filings by TSYS with the Securities and Exchange Commission, in press releases, and in oral and written statements made by or with the approval of TSYS which are not statements of historical fact constitute forward-looking statements within the meaning of the Act. Examples of forward-looking statements include, but are not limited to: (i) projections of revenue, income or loss, earnings or loss per share, the payment or nonpayment of dividends, capital structure and other financial items; (ii) statements of plans and objectives of TSYS or its management or Board of Directors, including those relating to products or services; (iii) statements of future economic performance; and (iv) statements of assumptions underlying such statements. Words such as believes, anticipates, expects, intends, targeted, estimates, projects, plans, may, could, should, would, and

are intended to identify forward-looking statements but are not the exclusive means of identifying these statements.

These statements are based upon the current beliefs and expectations of TSYS management and are subject to significant risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements. A number of important factors could cause actual results to differ materially from those contemplated by our forward looking statements. Many of

Table of Contents

these factors are beyond TSYS' ability to control or predict. These factors include, but are not limited to: (i) revenues that are lower than anticipated; (ii) expenses associated with the spin-off are higher than expected; (iii) movements in LIBOR are greater than expected and draws on the revolving credit facility are greater than expected; (iv) TSYS incurs expenses associated with the signing of a significant client; (v) internal growth rates for TSYS' existing clients are lower than anticipated; (vi) TSYS does not convert and deconvert clients' portfolios as scheduled; (vii) adverse developments with respect to foreign currency exchange rates; (viii) adverse developments with respect to entering into contracts with new clients and retaining current clients; (ix) continued consolidation in the financial services industry, including the merger of TSYS clients with entities that are not TSYS clients or the sale of portfolios by TSYS clients to entities that are not TSYS clients; (x) TSYS is unable to control expenses and increase market share, both domestically and internationally; (xi) adverse developments with respect to the credit card industry in general, including a decline in the use of cards as a payment mechanism; (xii) TSYS is unable to successfully manage any impact from slowing economic conditions or consumer spending; (xiii) the impact of acquisitions, including their being more difficult to integrate than anticipated; (xiv) the costs and effects of litigation, investigations or similar matters or adverse facts and developments relating thereto; (xv) the impact of the application of and/or changes in accounting principles; (xvi) TSYS' inability to timely, successfully and cost-effectively improve and implement processing systems to provide new products, increased functionality and increased efficiencies; (xvii) TSYS' inability to anticipate and respond to technological changes, particularly with respect to e-commerce; (xviii) changes occur in laws, regulations, credit card associations rules or other industry standards affecting TSYS' business which require significant product redevelopment efforts or reduce the market for or value of its products; (xix) successfully managing the potential both for patent protection and patent liability in the context of rapidly developing legal framework for expansive patent protection; (xx) no material breach of security of any of our systems; (xxi) overall market conditions; (xxii) the loss of a major supplier; (xxiii) the impact on TSYS' business, as well as on the risks set forth above, of various domestic or international military or terrorist activities or conflicts; and (xxiv) TSYS' ability to manage the foregoing and other risks.

These forward-looking statements speak only as of the date on which they are made and TSYS does not intend to update any forward-looking statement as a result of new information, future developments or otherwise.

Table of Contents**TOTAL SYSTEM SERVICES, INC.****Item 3 Quantitative and Qualitative Disclosures About Market Risk****Foreign Exchange Risk**

The Company is exposed to foreign exchange risk because it has assets, liabilities, revenues and expenses denominated in foreign currencies other than the U.S. dollar. These currencies are translated into U.S. dollars at current exchange rates, except for revenues, costs and expenses and net income, which are translated at the average exchange rate for each reporting period. Net exchange gains or losses resulting from the translation of assets and liabilities of foreign operations, net of tax, are accumulated in a separate section of shareholders' equity entitled accumulated other comprehensive income, net. The following represents the amount of other comprehensive gain for the three months ended March 31, 2008 and 2007, respectively:

<i>(in millions)</i>	Three months ended March 31,	
	2008	2007
Other comprehensive gain (loss)	\$ 4.4	(0.1)

Currently, the Company does not use financial instruments to hedge exposure to exchange rate changes.

The following table presents the carrying value of the net assets of our foreign operations in U.S. dollars at March 31, 2008:

<i>(in millions)</i>	March 31, 2008
Europe	\$ 142.6
China	66.6
Japan	7.0
Mexico	8.6
Canada	0.6
Other	14.2

TSYS records foreign currency translation adjustments associated with other balance sheet accounts. The Company maintains several cash accounts denominated in foreign currencies, primarily in Euros and BPS. As TSYS translates the foreign-denominated cash balances into U.S. dollars, the translated cash balance is adjusted upward or downward depending upon the foreign currency exchange movements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation in the statements of income. As those cash accounts have increased, the upward or downward adjustments have increased. TSYS recorded a translation gain of approximately \$1.0 million for the three months ended March 31, 2008 relating to the translation of cash and other balance sheet accounts. The balance of the foreign-denominated cash accounts subject to risk of translation gains or losses at March 31, 2008 was approximately \$16.3 million, the majority of which is denominated in Euros.

The Company provides financing to its international operations in Europe and Japan through intercompany loans that require each operation to repay the financing in U.S. dollars. The functional currency of each operation is the respective local currency. As it translates the foreign currency denominated financial statements into U.S. dollars, the translated balance of the financing (liability) is adjusted upward or downward to match the U.S. dollar obligation (receivable) on its financial statements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation. As a result of these financing arrangements, TSYS recorded a foreign currency translation gain on the financing with foreign operations during the three months ended March 31, 2008 of \$941,000. The balance of the financing arrangements at March 31, 2008 was approximately \$8.6 million.

A summary of account balances subject to foreign currency exchange rate changes between the local currencies and the U.S. dollar follows:

Balance at

<i>(in millions)</i>		March 31, 2008	
Asset	Cash	\$	16.3
Liability	Intercompany financing arrangements		(8.6)
	Net account balances	\$	7.7

The following table presents the potential effect on income before income taxes of hypothetical shifts in the foreign currency exchange rate between the local currencies and the U.S. dollar of plus or minus 100 basis points, 500 basis points and 1,000 basis points based on the net asset account balance of \$7.7 million at March 31, 2008.

Table of Contents

<i>(in millions)</i>	Effect of Basis Point Change					
	Increase in basis point of			Decrease in basis point of		
	100	500	1,000	100	500	1,000
Effect on income before income taxes	\$0.1	0.4	0.8	(0.1)	(0.4)	(0.8)

Interest Rate Risk

TSYS is also exposed to interest rate risk associated with the investing of available cash and the use of debt. TSYS invests available cash in conservative short-term instruments and is primarily subject to changes in the short-term interest rates.

On December 21, 2007, the Company entered into a Credit Agreement with Bank of America N.A., as Administrative Agent, The Royal Bank of Scotland plc, as Syndication Agent, and the other lenders. The Credit Agreement provides for a \$168 million unsecured five year term loan to the Company and a \$252 million five year unsecured revolving credit facility. The principal balance of loans outstanding under the credit facility bears interest at a rate of London Interbank Offered Rate (LIBOR) plus an applicable margin of 0.60%. Interest is paid on the last date of each interest period; however, if the period exceeds three months, interest is paid every three months after the beginning of such interest period.

On August 3, 2007, the Company's European operation obtained a loan of approximately £33 million or approximately \$67.7 million from a third party mainly to repay the U.S. parent loan that was used for the acquisitions. The loan is payable in 18 months at a rate of the one-month LIBOR plus 45 basis points. The interest is payable monthly.

In connection with the formation of TSYS Managed Services, both TSYS and Merchants agreed to provide long-term financing arrangements to TSYS Managed Services to fund future growth and expansion. At the end of March 2008, the balance of the loan from Merchants was approximately £2.0 million, or approximately \$3.9 million, payable in total in five years, at an interest rate of the LIBOR plus 2%, with interest payable quarterly.

Item 4 Controls and Procedures

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report as required by Rule 13a-15 of the Securities Exchange Act of 1934, as amended. This evaluation was carried out under the supervision and with the participation of our management, including our chief executive officer and chief financial officer. Based on this evaluation, these officers have concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to TSYS (including its consolidated subsidiaries) required to be included in our periodic SEC filings. No change in TSYS internal control over financial reporting occurred during the period covered by this report that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 1A Risk Factors

In addition to the other information set forth in this report, one should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect the Company's financial position, results of operations or cash flows. The risks described in the Company's Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that the Company currently deems to be immaterial also may materially adversely affect the Company's financial position, results of operations or cash flows.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information regarding the Company's purchases of its common stock on a monthly basis during the three months ended March 31, 2008:

<i>(in thousands, except per share data)</i>	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
Period				
January 2008		\$	1,102	8,898
February 2008	130	23.33	1,232	8,768
March 2008	370	22.53	1,602	8,398
Total	500	\$ 22.74
