LETTER FROM THE CEO

[Photo of Robert J. Manning]

Dear Shareholders:

The past year has been a great example of why investors should keep their eyes on the long term.

In 2006 the Dow Jones Industrial Average returned 19%. As of mid-May 2007, it had returned another 8% and continued to reach new highs. But the Dow's upward rise has not been without hiccups. After hitting new records in February, the Dow lost 5.8% between February 20 and March 5, as stocks were sold off around the globe. As we have said before, markets are volatile, and investors should make sure they have an investment plan that can carry them through the peaks and troughs.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

If you are focused on a long-term investment strategy, the short-term ups and downs of the markets should not necessarily dictate portfolio action on your part. Both the bond and stock markets are cyclical. In our view, investors who remain committed to a long-term plan are more likely to achieve their financial goals. We believe you should not let the headlines guide you in your investment decisions and should be cautious about overreacting to short-term volatility.

In any market environment, we believe individual investors are best served by following a three-pronged investment strategy of allocating their holdings across the major asset classes, diversifying within each class, and regularly rebalancing their portfolios to maintain their desired allocations. Of course, these strategies cannot guarantee a profit or protect against a loss. Investing and planning for the long term require diligence and patience, two traits that in our experience are essential to capitalizing on the many opportunities the financial markets can offer -- through both up and down economic cycles.

Respectfully,

/s/ Robert J. Manning

Netherlands	2.1%
Mexico	1.5%
Canada	1.4%
Other Countries	9.6%

(a) The average credit quality of rated securities is based upon a market weighted average of portfolio holdings that are rated by public rating agencies.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

- (d) Duration is a measure of how much a bond's price is likely to fluctuate with general changes in interest rates, e.g., if rates rise 1.00%, a bond with a 5-year duration is likely to lose about 5.00% of its value.
- (i) For purposes of this presentation, the bond component includes both accrued interest amounts and the equivalent exposure from any derivative holdings, if applicable.
- (m) The average maturity shown is calculated using the final stated maturity on the portfolio's holdings without taking into account any holdings which have been pre-refunded or pre-paid to an earlier date or which have a mandatory put date prior to the stated maturity. The average life shown takes into account these earlier dates.
- (r) Each security is assigned a rating from Moody's Investors Service. If not rated by Moody's, the rating will be that assigned by Standard & Poor's. Likewise, if not assigned a rating by Standard & Poor's, it will be based on the rating assigned by Fitch, Inc. For those portfolios that hold a security which is not rated by any of the three agencies, the security is considered Not Rated. Holdings in U.S. Treasuries and government agency mortgage-backed securities, if any, are included in the "AAA"-rating category. Percentages are based on the total market value of investments as of 04/30/07.

Percentages are based on net assets as of 04/30/07, unless otherwise noted.

The portfolio is actively managed and current holdings may be different.

PORTFOLIO MANAGERS' PROFILES

Richard O. Hawkins, CFA, is Senior Vice President of MFS Investment Management (R) (MFS(R)) and portfolio manager of fixed income mutual funds, variable annuities, separate accounts, and closed end funds. Richard joined the firm in 1988 and was named portfolio manager in 1996. He has been a portfolio manager of the fund since April 2006. Richard earned a bachelor's degree from Brown University and a Master's of Business Administration from the University of Pennsylvania. He is a member of the Association for Investment Management and Research (AIMR) and the Boston Security Analysts Society, Inc. He holds the Chartered Financial Analyst (CFA) designation.

John F. Addeo, CFA, is Vice President of MFS Investment Management (R) (MFS(R)) and portfolio manager of the high-yield bond portfolios of our mutual funds, variable annuities, offshore accounts and closed-end funds. John joined MFS as a research analyst in 1998. He became Vice President in 1999, associate portfolio manager in 2000, and portfolio manager in 2001. He has been a portfolio manager of the fund since February 2005. John received a Bachelor of Science degree from Siena College in 1984. He holds the Chartered Financial Analyst (CFA) designation.

James J. Calmas is Senior Vice President of MFS Investment Management (R) (MFS(R)) and team leader of the firm's strategic income and limited maturity portfolios, and portfolio manager of variable annuities, and offshore investment products. Jim joined MFS in 1988 and was named portfolio manager in 1998, and Senior Vice President in 2002. He has been a portfolio manager of the fund since September 2004. Jim is a graduate of Dartmouth College and holds an M.B.A. degree from the Amos Tuck School of Business Administration of Dartmouth College.

David P. Cole, CFA, is Vice President of MFS Investment Management (R) (MFS(R)). He is also a co-portfolio manager on the firm's high-yield portfolios and the high-yield segment of the MFS Diversified Income Fund. He has been a portfolio manager of the fund since October 2006. David joined MFS in 2004 after working for five years as a High Yield Analyst for Franklin Templeton Investments. Prior to this, he served as a Financial Economist/ Treasury Market Analyst for

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

Thomson Financial Services and three years as an Economist for Standard and Poor's. David has a bachelor's degree from Cornell University and an M.B.A from University of California, Berkeley. He holds the Chartered Financial Analyst (CFA) designation.

Matthew W. Ryan, CFA, is Senior Vice President of MFS Investment Management (R) (MFS(R)) and portfolio manager of strategic income and high yield portfolios, as well as the firm's emerging market debt portfolios. He was named a portfolio manager of MFS in 1998; Vice President in 1999; and Senior Vice President in 2005. He has been a portfolio manager of the fund since September 2001. Matt is a graduate of Williams College and earned a master's degree in international economics and foreign policy from Johns Hopkins University. Matt also holds the Chartered Financial Analyst (CFA) designation.

Note to Shareholders: Effective October 9, 2006, David Cole replaced Scott Richards as a manager of the portfolio.

PERFORMANCE SUMMARY THROUGH 4/30/07

All results are historical. Investment return and principal value will fluctuate, and shares, when sold, may be worth more or less than their original cost. More recent returns may be more or less than those shown. Past performance is no guarantee of future results.

PRICE SUMMARY

Six months ended 4/30/07

	Date	Price
Net Asset Value Per Share	4/30/07	\$6.78
	10/31/06	\$6.74

- (r) Includes reinvestment of dividends and capital gain distributions.
- (t) For the period November 1, 2006 through April 30, 2007.

INDEX DEFINITIONS

Citigroup World Government Bond Non-Dollar Hedged Index - a market capitalization-weighted index that tracks the currency-hedged performance of the major government bond markets, excluding the United States. Country eligibility is determined based upon market capitalization and investability criteria.

JPMorgan Emerging Markets Bond Index Global (EMBI Global) - tracks total returns for U.S.-dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans, Eurobonds.

Lehman Brothers U.S. Credit Bond Index - measures publicly issued, SEC-registered, U.S. corporate and specified foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements.

Lehman Brothers U.S. Government/Mortgage Bond Index - measures debt issued by the U.S. Government, and its agencies, as well as mortgage-backed pass-through securities of Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC).

Lehman Brothers U.S. High-Yield Corporate Bond Index - measures the universe of non-investment grade, fixed rate debt. Eurobonds, and debt issues from countries designated as emerging markets (e.g., Argentina, Brazil, Venezuela, etc.) are excluded.

It is not possible to invest directly in an index.

NOTES TO PERFORMANCE SUMMARY

The trust's shares may trade at a discount to net asset value. Shareholders do not have the right to cause the trust to repurchase their shares at net asset value. When trust shares trade at a premium, buyers pay more than the net asset value underlying trust shares, and shares purchased at a premium would receive less than the amount paid for them in the event of the trust's liquidation. As a result, the total returns that are calculated based on the net asset value and New York Stock Exchange prices can be different. The trust's monthly distributions may include a return of capital to shareholders. Distributions that are treated for federal income tax purposes as a return of capital will reduce each shareholder's basis in his or her shares and, to the extent the return of capital exceeds such basis, will be treated as gain to the shareholder from a sale of shares. Returns of shareholder capital have the effect of reducing the trust's assets and may increase the trust's expense ratio.

From time to time the trust may receive proceeds from litigation settlements, without which performance would be lower.

In accordance with Section 23(c) of the Investment Company Act of 1940, the trust hereby gives notice that it may from time to time repurchase shares of the trust in the open market at the option of the Board of Trustees and on such terms as the Trustees shall determine.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The trust offers a Dividend Reinvestment and Cash Purchase Plan that allows you

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

to reinvest either all of the distributions paid by the trust or only the long-term capital gains. Purchases are made at the market price unless that price exceeds the net asset value (the shares are trading at a premium). If the shares are trading at a premium, purchases will be made at a discounted price of either the net asset value or 95% of the market price, whichever is greater. Twice each year you can also buy shares. Investments may be made in any amount over \$100 in January and July on the 15th of the month or shortly thereafter.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the plan on your behalf. If the nominee does not offer the plan, you may wish to request that your shares be re-registered in your own name so that you can participate. There is no service charge to reinvest distributions, nor are there brokerage charges for shares issued directly by the trust. However, when shares are bought on the New York Stock Exchange or otherwise on the open market, each participant pays a pro rata share of the transaction expenses, including commissions. The automatic reinvestment of distributions does not relieve you of any income tax that may be payable (or required to be withheld) on the distributions.

To enroll in or withdraw from the plan, or if you have any questions, call 1-800-637-2304 any business day from 9 a.m. to 5 p.m. Eastern time. Please have available the name of the trust and your account and Social Security numbers. For certain types of registrations, such as corporate accounts, instructions must be submitted in writing. Please call for additional details. When you withdraw from the plan, you can receive the value of the reinvested shares in one of two ways: a check for the value of the full and fractional shares, or a certificate for the full shares and a check for the fractional shares.

Effective May 1, 2007, Computershare Trust Company, N.A. (the Transfer Agent for the trust) became the agent for the plan.

PORTFOLIO OF INVESTMENTS 4/30/07 (unaudited)

- (a) Non-income producing security.
- (f) All or a portion of the security has been segregated as collateral for an open futures contract.
- (g) The rate shown represents a weighted average coupon rate on settled positions at period end.
- (i) Interest only security for which the trust receives interest on notional principal (Par amount shown is the notional principal and does not reflect the cost of the security).
- (k) As of April 30, 2007, the trust held securities fair valued in accordance with the policies of the Board of Trustees, aggregating \$465,968,003 and 87.52% of market value. An independent pricing firm provided an evaluated bid for 86.13% of the market value.
- (n) Securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities were sold in the ordinary course of business in transactions exempt from registration, normally to institutional buyers. At period end, the aggregate value of these securities was \$65,670,150 or 12.2% of net assets.
- (o) All or a portion of this position has not settled. Upon settlement date, interest rates will be determined.
- (p) Payment-in-kind security.
- (r) Remaining maturities of floating rate loans may be less than stated maturities shown as a result of contractual or optional prepayments by the borrower. Such prepayments cannot be predicted with certainty. These loans may be subject to restrictions on resale. Floating rate loans generally have rates of interest which are determined periodically by reference to a base lending rate plus a premium.
- (t) Security exempt from registration with the U.S. Securities and Exchange Commission under Section 3(a)(7) of the Securities Act of 1933.
- (y) The rate shown represents an annualized yield at time of purchase.
- (z) Restricted securities are not registered under the Securities Act of 1933 and are subject to restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are subsequently registered. Disposal of these securities may require time-consuming negotiations and prompt sale at an acceptable price may be difficult. The trust has the following restricted securities:

RESTRICTED SECURITIES	ACQUISITION DATE	ACQUISITION COST	CURRENT MARKET VALUE

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the trust's financial performance over the past 5 fiscal years (or life of a particular share class, if shorter). Certain information represents the performance of a single trust share. The total returns in the table represent the rate by which an investor would have earned on an investment in the trust share class (assuming reinvestment of all distributions) held for the entire period.

	SIX MONTHS ENDED 4/30/07 (UNAUDITED)	2006	2005	YEARS ENDED

SEE NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

(unaudited)

(1) BUSINESS AND ORGANIZATION

MFS Multimarket Income Trust (the trust) is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as a closed-end diversified management investment company.

(2) SIGNIFICANT ACCOUNTING POLICIES

GENERAL - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The trust can invest in foreign securities, including securities of emerging market issuers. Investments in foreign securities are vulnerable to the effects of changes in the relative values of the local currency and the U.S. dollar and to the effects of changes in each country's legal, political, and economic environment. The markets of emerging markets countries are generally more volatile than the markets of developed countries with more mature economies. All of the risks of investing in foreign securities previously described are heightened when investing in emerging markets countries.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

INVESTMENT VALUATIONS - Equity securities, including restricted equity securities, are generally valued at the last sale or official closing price as reported by an independent pricing service on the market or exchange on which they are primarily traded. For securities for which there were no sales reported that day, equity securities are generally valued at the last quoted daily bid quotation as reported by an independent pricing service on the market or exchange on which they are primarily traded. For securities held short for which there were no sales reported for the day, the position is generally valued at the last quoted daily ask quotation as reported by an independent pricing service on the market or exchange on which such securities are primarily traded. Debt instruments (other than short-term instruments), including restricted debt instruments, are generally valued at an evaluated or composite bid as reported by an independent pricing service. Short-term instruments with a maturity at issuance of 60 days or less may be valued at amortized cost, which approximates market value. Exchange-traded options are generally valued at the last sale or official closing price as reported by an independent pricing service on the exchange on which such options are primarily traded. Exchange-traded options for which there were no sales reported that day are generally valued at the last daily bid quotation as reported by an independent pricing service on the exchange on which such options are primarily traded. Options not traded on an exchange are generally valued at a broker-dealer bid quotation. Foreign currency options are generally valued using an external pricing model that uses market data from an independent source. Futures contracts are generally valued at last posted settlement price as reported by an independent pricing service on the market on which they are primarily traded. Futures contracts for which there were no trades that day for a particular position are generally valued at the closing bid quotation as reported by an independent pricing service on the market on which such futures contracts are primarily traded. Forward foreign currency contracts are generally valued at the mean of bid and asked prices for the time period interpolated from rates reported by an independent pricing service for proximate time periods. Swaps are generally valued at an evaluated bid as reported by an independent pricing service. Securities and other assets generally valued on the basis of information from an independent pricing service may also be valued at a broker-dealer bid quotation. Values obtained from pricing services can utilize both dealer-supplied valuations and electronic data processing techniques, which take into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of foreign securities and other assets and liabilities expressed in foreign currencies are converted to U.S. dollars using the mean of bid and asked prices for rates reported by an independent pricing service.

The Board of Trustees has delegated primary responsibility for determining or causing to be determined the value of the trust's investments (including any fair valuation) to the adviser pursuant to valuation policies and procedures approved by the Board. If the adviser determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the adviser in accordance with such procedures under the oversight of the Board of Trustees. Under the trust's valuation policies and procedures, market quotations are not considered to be readily available for many types of debt instruments and certain types of derivatives. These investments are generally valued at fair value based on information from independent pricing services. In addition, investments may be valued at fair value if the adviser determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the trust's net asset value, or after the halting of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur on a frequent basis after foreign markets close (such as developments in foreign markets and significant movements in the U.S. markets)

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

and prior to the determination of the trust's net asset value may be deemed to have a material affect on the value of securities traded in foreign markets. Accordingly, the trust's foreign equity securities may often be valued at fair value. The adviser may rely on independent pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the trust's net asset value can differ depending on the source and method used to determine value. When fair valuation is used, the value of investments used to determine the trust's net asset value may differ from quoted or published prices for the same investments.

In September 2006, FASB Statement No. 157, Fair Value Measurements (the "Statement") was issued, and is effective for fiscal years beginning after November 15, 2007 and for all interim periods within those fiscal years. This Statement provides a single definition of fair value, a hierarchy for measuring fair value and expanded disclosures about fair value measurements. Management is evaluating the application of the Statement to the trust, and believes the impact will be limited to expanded disclosures resulting from the adoption of this Statement in the trust's financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159 (FAS 159) "The Fair Value Option for Financial Assets and Financial Liabilities - including an amendment of FASB Statement No. 115." FAS 159 permits entities to elect to measure certain financial assets and liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings at each subsequent reporting date. FAS 159 is effective for fiscal years beginning after November 15, 2007. Management is evaluating the application of the Statement to the trust and its impact on the trust's financial statements, if any, has not been determined.

REPURCHASE AGREEMENTS - The trust may enter into repurchase agreements with institutions that the trust's investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. The trust requires that the securities collateral in a repurchase transaction be transferred to the custodian in a manner sufficient to enable the trust to obtain those securities in the event of a default under the repurchase agreement. The trust monitors, on a daily basis, the value of the collateral to ensure that its value, including accrued interest, is greater than amounts owed to the trust under each such repurchase agreement. The trust and other funds managed by Massachusetts Financial Services Company (MFS), may utilize a joint trading account for the purpose of entering into one or more repurchase agreements.

INFLATION-ADJUSTED DEBT SECURITIES - The trust invests in inflation-adjusted debt securities issued by the U.S. Treasury. The trust may also invest in inflation-adjusted debt securities issued by U.S. Government agencies and instrumentalities other than the U.S. Treasury and by other entities such as U.S. and foreign corporations and foreign governments. The principal value of these debt securities is adjusted by references to changes in the Consumer Price Index or another general price or wage index. These debt securities typically pay a fixed rate of interest, but this fixed rate is applied to the inflation-adjusted principal amount. The principal paid at maturity of the debt security is typically equal to the inflation-adjusted principal amount, or the security's original par value, whichever is greater. Other types of inflation-adjusted securities may use other methods to adjust for other measures of inflation.

FOREIGN CURRENCY TRANSLATION - Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

exchange rates prevailing on the respective dates of such transactions. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

DERIVATIVE RISK - The trust may invest in derivatives for hedging or non-hedging purposes. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. When the trust uses derivatives as an investment to gain market exposure, or for hedging purposes, gains and losses from derivative instruments may be substantially greater than the derivative's original cost. Derivative instruments include purchased options, futures contracts, forward foreign currency exchange contracts, and swap agreements.

PURCHASED OPTIONS - The trust may purchase call or put options for a premium. Purchasing call options may be a hedge against an anticipated increase in the dollar cost of securities to be acquired or to increase the trust's exposure to the underlying instrument. Purchasing put options may hedge against a decline in the value of portfolio securities. The premium paid is included as an investment in the Statement of Assets and Liabilities and is subsequently adjusted to the current value of the option. Premiums paid for purchased options which have expired are treated as realized losses on investments in the Statement of Operations. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security or financial instrument to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

FUTURES CONTRACTS - The trust may enter into futures contracts for the delayed delivery of securities or currency, or contracts based on financial indices at a fixed price on a future date. In entering such contracts, the trust is required to deposit with the broker either in cash or securities an amount equal to a certain percentage of the contract amount. Subsequent payments are made or received by the trust each day, depending on the daily fluctuations in the value of the contract, and are recorded for financial statement purposes as unrealized gains or losses by the trust. Upon entering into such contracts, the trust bears the risk of interest or exchange rates or securities prices moving unexpectedly, in which case, the trust may not achieve the anticipated benefits of the futures contracts and may realize a loss.

FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS - The trust may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the contract. The trust may enter into forward foreign currency exchange contracts for hedging purposes as well as for non-hedging purposes. For hedging purposes, the trust may enter into contracts to deliver or receive foreign currency it will receive from or require for its normal investment activities. The trust may also use contracts in a manner intended to protect foreign currency denominated securities from declines in value due to unfavorable exchange rate movements. For non-hedging purposes, the trust may enter into contracts with the intent of changing the relative exposure of the trust's portfolio of securities to different currencies to take advantage of anticipated changes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses are recorded as unrealized until the contract settlement date. On contract settlement date, the gains or losses are recorded as realized gains or losses on foreign currency transactions.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

SWAP AGREEMENTS - The trust may enter into swap agreements. A swap is an exchange of cash payments between the trust and another party. Net cash payments are exchanged at specified intervals and are recorded as a realized gain or loss in the Statement of Operations. The value of the swap is adjusted daily and the change in value, including accruals of periodic amounts of interest to be paid or received, is recorded as unrealized appreciation or depreciation in the Statement of Operations. A liquidation payment received or made upon early termination is recorded as a realized gain or loss in the Statement of Operations. Collateral, in the form of cash or securities, may be required to be held in segregated accounts with the trust's custodian in connection with these agreements. Risk of loss may exceed amounts recognized on the Statement of Assets and Liabilities. These risks include the possible lack of a liquid market, failure of the counterparty to perform under the terms of the agreements, and unfavorable market movement of the underlying instrument. All swap agreements entered into by the trust with the same counterparty are generally governed by a single master agreement, which provides for the netting of all amounts owed by the parties under the agreement upon the occurrence of an event of default, thereby reducing the credit risk to which such party is exposed.

The trust holds a credit default swap in which one party makes a stream of payments based on a fixed percentage applied to the notional amount to another party in exchange for the right to receive a specified return in the event of a default by a third party, such as a corporate issuer or foreign issuer, on its obligation. The trust may enter into credit default swaps to limit or to reduce its risk exposure to defaults of corporate and sovereign issuers or to create direct or synthetic short or long exposure to corporate debt securities or certain sovereign debt securities to which it is not otherwise exposed.

HYBRID INSTRUMENTS - The trust may invest in indexed or hybrid securities on which any combination of interest payments, the principal or stated amount payable at maturity is determined by reference to prices of other securities, currencies, indexes, economic factors or other measures, including interest rates, currency exchange rates, or securities indices. The risks of investing in hybrid instruments reflect a combination of the risks of investing in securities, swaps, options, futures and currencies. Hybrid instruments are potentially more volatile and carry greater market risks than traditional debt instruments. Depending on the structure of the particular hybrid instrument, changes in a benchmark, underlying assets or economic indicator may be magnified by the terms of the hybrid instrument and have an even more dramatic and substantial effect upon the value of the hybrid instrument. Also, the prices of the hybrid instrument and the benchmark, underlying asset or economic indicator may not move in the same direction or at the same time.

LOANS AND OTHER DIRECT DEBT INSTRUMENTS - The trust may invest in loans and loan participations or other receivables. These investments may include standby financing commitments, including revolving credit facilities, which obligate the trust to supply additional cash to the borrower on demand. At April 30, 2007, the portfolio had unfunded loan commitments of \$41,714, which could be extended at the option of the borrower and which are covered by sufficient cash and/or liquid securities held by the trust. Loan participations involve a risk of insolvency of the lending bank or other financial intermediary.

INDEMNIFICATIONS - Under the trust's organizational documents, its officers and trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the trust. Additionally, in the normal course of business, the trust enters into agreements with service providers that may contain indemnification clauses. The trust's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the trust that have not yet occurred.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

INVESTMENT TRANSACTIONS AND INCOME - Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. All premium and discount is amortized or accreted for financial statement purposes in accordance with U.S. generally accepted accounting principles. All discount is accreted for tax reporting purposes as required by federal income tax regulations. The trust earns certain fees in connection with its floating rate loan purchasing activities. These fees are in addition to interest payments earned and may include amendment fees, commitment fees, facility fees, consent fees, and prepayment fees. These fees are recorded on an accrual basis as income in the accompanying financial statements. Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the trust is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The trust may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statement of Operations in realized gain/loss if the security has been disposed of by the trust or in unrealized gain/loss if the security is still held by the trust. Any other proceeds from litigation not related to portfolio holdings are reflected as other income in the Statement of Operations.

The trust may enter into "TBA" (to be announced) purchase commitments to purchase securities for a fixed unit price at a future date. Although the unit price has been established, the principal value has not been finalized. However, the principal amount of the commitments will not fluctuate more than 0.01%. The trust holds, and maintains until settlement date, cash or high-grade debt obligations in an amount sufficient to meet the purchase price, or the trust may enter into offsetting contracts for the forward sale of other securities it owns. Income on the securities will not be earned until settlement date. TBA purchase commitments may be considered securities in themselves, and involve a risk of loss if the value of the security to be purchased declines prior to settlement date, which is in addition to the risk of decline in the value of the trusts' other assets. Unsettled TBA purchase commitments are valued at the current market value of the underlying securities.

The trust may enter into "TBA" (to be announced) sale commitments to hedge its portfolio positions or to sell mortgage-backed securities it owns under delayed delivery arrangements. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment deliverable on or before the sale commitment date, are held as "cover" for the transaction.

FEES PAID INDIRECTLY - The trust's custody fee is reduced according to an arrangement that measures the value of cash deposited with the custodian by the trust. This amount, for the six months ended April 30, 2007, is shown as a reduction of total expenses on the Statement of Operations.

TAX MATTERS AND DISTRIBUTIONS - The trust intends to qualify as a regulated investment company, as defined under Subchapter M of the Internal Revenue Code, and to distribute all of its taxable income, including realized capital gains. Accordingly, no provision for federal income tax is required in the financial statements. Foreign taxes, if any, have been accrued by the trust in the accompanying financial statements.

Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Distributions in excess of net investment income or net realized gains are temporary overdistributions for financial statement purposes resulting from differences in the recognition or classification of income or distributions for financial statement and tax purposes.

Book/tax differences primarily relate to amortization and accretion of debt securities, defaulted bonds, straddle loss deferrals, foreign currency transactions, and derivative transactions.

The tax character of distributions made during the current period will be determined at fiscal year end. The tax character of distributions declared to shareholders is as follows:

	10/31/06
Ordinary income (including any short-term capital gains)	\$29,991,840

The federal tax cost and the tax basis components of distributable earnings were as follows:

AS OF 4/30/07	
Cost of investments	\$525,573,453
Gross appreciation	10,915,076
Gross depreciation	(4,059,897)
Net unrealized appreciation (depreciation)	\$6,855,179
AS OF 10/31/06	
Undistributed ordinary income	2,007,686
Capital loss carryforwards	(75,413,701)
Other temporary differences	(3,968,868)
Net unrealized appreciation (depreciation)	2,682,139

The aggregate cost above includes prior fiscal year end tax adjustments.

As of October 31, 2006, the trust had capital loss carryforwards available to offset future realized gains. Such losses expire as follows:

10/31/08	\$ (6,883,833)
10/31/09	(22,359,865)
10/31/10	(38,291,079)
10/31/14	(7,878,924)
	\$(75,413,701)

In June 2006, FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (the "Interpretation") was issued, and is effective for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. On December 22, 2006, the SEC delayed the implementation of the Interpretation for regulated investment companies for an additional six months. This Interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return, and requires certain expanded disclosures. Management

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

has evaluated the application of the Interpretation to the trust, and has determined that there is no impact resulting from the adoption of this Interpretation on the trust's financial statements.

(3) TRANSACTIONS WITH AFFILIATES

INVESTMENT ADVISER - The trust has an investment advisory agreement with MFS to provide overall investment management and related administrative services and facilities to the trust. The management fee is computed daily and paid monthly at an annual rate of 0.34% of the trust's average daily net assets and 5.40% of gross income. Gross income is calculated based on tax elections that generally include the accretion of discount and exclude the amortization of premium, which may differ from investment income reported in the Statement of Operations. The management fee, from net assets and gross income, incurred for the six months ended April 30, 2007 was equivalent to an annual effective rate of 0.68% of the trust's average daily net assets.

TRANSFER AGENT - Prior to December 18, 2006, MFS Service Center, Inc. (MFSC), a wholly-owned subsidiary of MFS, received a fee from the trust for its services as registrar and dividend-disbursing agent. Pursuant to a written agreement, the trust paid MFSC an account maintenance fee of no more than \$9.00 and a dividend services fee of \$0.75 per reinvestment. Effective December 18, 2006, the trust has engaged Computershare Trust Company, N.A. ("Computershare") as the sole transfer agent for the trust. MFSC will continue to monitor and supervise the activities of Computershare for an agreed upon fee approved by the Board of Trustees. For the six months ended April 30, 2007, these fees paid to MFSC amounted to \$54,859. MFSC also receives payment from the trust for out-of-pocket expenses paid by MFSC on behalf of the trust. For the six months ended April 30, 2007, these costs amounted to \$53,515.

ADMINISTRATOR - MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to the trust. Under an administrative services agreement, the trust partially reimburses MFS the costs incurred to provide these services. The trust is charged a fixed amount plus a fee based on calendar year average net assets. The trust's annual fixed amount is \$17,500.

The administrative services fee incurred for the six months ended April 30, 2007 was equivalent to an annual effective rate of 0.0191% of the trust's average daily net assets.

TRUSTEES' AND OFFICERS' COMPENSATION - The trust pays compensation to independent trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The trust does not pay compensation directly to trustees or to officers of the trust who are also officers of the investment adviser, all of whom receive remuneration for their services to the trust from MFS. Certain officers and trustees of the trust are officers or directors of MFS and MFSC. The trust has an unfunded, defined benefit plan for certain retired independent trustees which resulted in a pension expense of \$4,040. The trust also has an unfunded retirement benefit deferral plan for certain independent trustees which resulted in an expense of \$5,561. Both amounts are included in independent trustees' compensation for the six months ended April 30, 2007. The liability for deferred retirement benefits payable to certain independent trustees under both plans amounted to \$285,272 at April 30, 2007, and is included in payable for independent trustees' compensation.

DEFERRED TRUSTEE COMPENSATION - Under a Deferred Compensation Plan (the Plan) independent trustees previously were allowed to elect to defer receipt of all or a portion of their annual compensation. Trustees are no longer allowed to defer compensation under the Plan. Amounts previously deferred are treated as though equivalent dollar amounts had been invested in shares of the trust or

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

other MFS funds selected by the trustee. Deferred amounts represent an unsecured obligation of the trust until distributed in accordance with the Plan. Included in other assets and payable for independent trustees' compensation is \$74,540 of deferred trustees' compensation.

OTHER - This trust and certain other MFS funds (the funds) have entered into a services agreement (the Agreement) which provides for payment of fees by the funds to Tarantino LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) for the funds. The ICCO is an officer of the funds and the sole member of Tarantino LLC. The funds can terminate the Agreement with Tarantino LLC at any time under the terms of the Agreement. For the six months ended April 30, 2007, the fee paid to Tarantino LLC was \$2,067. MFS has agreed to reimburse the trust for a portion of the payments made by the funds to Tarantino LLC in the amount of \$1,339, which is shown as a reduction of total expenses in the Statement of Operations. Additionally, MFS has agreed to bear all expenses associated with office space, other administrative support, and supplies provided to the ICCO.

(4) PORTFOLIO SECURITIES

Purchases and sales of investments, other than purchased option transactions and short-term obligations, were as follows:

	PURCHASES	SALES
U.S. government securities	\$21,567,401	\$47,662,764
Investments (non-U.S. government securities)	\$176,129,025	\$184,143,597

(5) SHARES OF BENEFICIAL INTEREST

The trust's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. The Trustees have authorized the repurchase by the trust of up to 10% annually of its own shares of beneficial interest. During the six months ended April 30, 2007, the trust did not repurchase any shares. Transactions in trust shares were as follows:

	PERIOD ENDED		YEAR ENDED	
	4/30/07		10/31/06	
	SHARES	AMOUNT	SHARES	AMOUNT
Treasury shares reacquired	--	\$--	(1,918,600)	\$(11,453,243)

(6) LINE OF CREDIT

The trust and other funds managed by MFS participate in a \$1 billion unsecured committed line of credit provided by a syndication of banks under a credit agreement. In addition, the trust and other funds managed by MFS have established uncommitted borrowing arrangements with certain banks. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, generally at a rate equal to the Federal Reserve funds rate plus 0.30% for the committed line of credit and 0.35% for the uncommitted line of credit. In addition, a commitment fee, based on the average daily, unused portion of the committed line of credit, is allocated among the participating funds at the end of each calendar quarter. For the six months ended April 30, 2007, the trust's commitment fee and interest expense were \$1,534 and \$1,756, respectively, and are included in miscellaneous expense on the Statement of Operations.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Shareholders of the MFS Multimarket Income Trust:

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

We have reviewed the accompanying statement of assets and liabilities of the MFS Multimarket Income Trust (the Trust), including the portfolio of investments, as of April 30, 2007, and the related statements of operations, changes in net assets, and financial highlights for the six-month period ended April 30, 2007. These interim financial statements are the responsibility of the Trust's management.

We conducted our review in accordance with the standards of the Public Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended October 31, 2006, and financial highlights for each of the five years in the period ended October 31, 2006, and in our report dated December 21, 2006, we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.

ERNST & YOUNG LLP

Boston, Massachusetts
June 13, 2007

BOARD REVIEW OF INVESTMENT ADVISORY AGREEMENT

A discussion regarding the Board's most recent review and renewal of the trust's investment advisory agreement is available by clicking on the trust's name under "Select a fund" on the MFS Web site (mfs.com).

PROXY VOTING POLICIES AND INFORMATION

A general description of the MFS trusts' proxy voting policies and procedures is available without charge, upon request, by calling 1-800-225-2606, by visiting the Proxy Voting section of mfs.com or by visiting the SEC's Web site at <http://www.sec.gov>.

Information regarding how the trust voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge by visiting the Proxy Voting section of mfs.com or by visiting the SEC's Web site at <http://www.sec.gov>.

QUARTERLY PORTFOLIO DISCLOSURE

The trust will file a complete schedule of portfolio holdings with the Securities and Exchange Commission (the Commission) for the first and third quarters of each fiscal year on Form N-Q. The trust's Form N-Q may be reviewed and copied at the:

Public Reference Room
Securities and Exchange Commission
100 F Street, NE, Room 1580
Washington, D.C. 20549

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

Information on the operation of the Public Reference Room may be obtained by calling the Commission at 1-202-551-5850. The fund's Form N-Q is available on the EDGAR database on the Commission's Internet Web site at <http://www.sec.gov>, and copies of this information may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the Public Reference Section at the above address.

A shareholder can also obtain the quarterly portfolio holdings report at mfs.com.

TOTAL	0	N/A	N/A

Note: The Board of Trustees approves procedures to repurchase Fund shares annually. The notification to shareholders of the program is included in the semi-annual and annual reports sent to shareholders. These annual programs begin on March 1st of each year. The programs conform to the conditions of Rule 10b-18 of the Securities Exchange Act of 1934 and limit the aggregate number of Fund shares that may be repurchased in each annual period (March 1 through the following February 28) to 10% of the Registrant's outstanding shares as of the first day of the plan year (March 1). The aggregate number of Fund shares available for repurchase for the March 1, 2007 plan year is 7,907,745.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSRS

There were no material changes to the procedures by which shareholders may send recommendations to the Board for nominees to the Registrant's Board since the Registrant last provided disclosure as to such procedures in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (as required by Item 22(b)(15) of Schedule 14A), or this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) Based upon their evaluation of the effectiveness of the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the "Act")) as conducted within 90 days of the filing date of this report on Form N-CSR, the registrant's principal financial officer and principal executive officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There were no changes in the registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the second fiscal quarter of the period covered by the report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

- (a) File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.
 - (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit.
 - (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2): Attached hereto.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)) and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for the purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: Attached hereto.

NOTICE

A copy of the Amended and Restated Declaration of Trust of the Registrant is on file with the Secretary of State of The Commonwealth of Massachusetts and notice is hereby given that this instrument is executed on behalf of the Registrant by an officer of the Registrant as an officer and not individually and the obligations of or arising out of this instrument are not binding upon any of the Trustees or shareholders individually, but are binding only upon the assets and property of the respective constituent series of the Registrant.
